ViewBoard IFP105S

Key **Features**

- Stunning 5K resolution for crisp image detail
- Built-in USB-C for simultaneous 65W fast charge and visual display
- Dual-pen, 40-point touch with synchronous writing performance
- Wireless presentation across devices with 2-way touch interactivity
- Split-screen and Floating windows mode for multi-tasking

Product **Description**

The ViewBoard® IFP105S is an ultra-wide 21:9 105" 5K interactive display that showcases more content and propels collaborators to achieve effective and robust results. The bezel-less 5K display panel is a gateway to a new visual quality and immersive meeting space. The unique 21:9 aspect ratio gives increased width for a more usable interactive area while also having a toolbar at the bottom and both sides of the large panel for easy access to every user. You can write smoothly with the pen that serves as an extension of your fingertips. With the equipped dual pens of different colours and thicknesses and up to 40-point touch, you can annotate and collaborate in real-time in the integrated digital whiteboarding software. Furthermore, it allows multiple connections, including comprehensive I/O ports and built-in USB-C ports supporting 65W fast charge and top-notch display simultaneously. Wireless screen sharing allows up to a 9-way split screen with 2-way touch interactivity that helps you to increase engagement and display more content with the ViewBoard® IFP105S interactive display.
